I give up, and do the G2 crossword instead.A just who is playing who in ARGs? The most common version of the Enigma has a key of four letters, so there are a little less than half a million combinations.After half an hour of trying ever four-letter phrase I can think of that Cicada may have picked, based on every previous clue. I give up and go to bed.In the morning, when I check again, the puzzle has been solved. At the end of the first Cicada, it was possible that the whole thing was a game, or publicity stunt. The numbers give a clue: the code probably involves a book. To get the information out required me to use a program called OutGuess. Photograph: Cicada 3301 Photograph: Cicada 3301It seems unbelievable, but the number of other possibilities is fast shrinking. So far, physical artefacts from the group have appeared in 6 nations and 11 US states; it has bought phone numbers; paid for server up time; and offered something to the winners which has earned their silence.Last chance! decided to have one last try at solving a puzzle. So far, it hasn't gone well.In fact, it couldn't have started any worse. As I look at the solution, my hope begins to melt. But above it is the next step of the puzzle.The first part reads like a poem: "The work of a private man/ who wished to transcend./ He trusted himself, / to produce from within." That's followed by a series of numbers, separated by colons: "1:2:3:1/3:3:13:5/45:5:2:3," and so on, capped by the word "onion". The first few were just about solvable by a canny individual working alone, requiring little more than mild coding ability and wordplay it e ,olavorT ".enigammi atseuq ni otsocsan oiggassem nu 'A'C' .tset nu otaedi omaibba ,ilravort reP .juonni etnemeterappa elif ni inoizamrofni erilleppes id itnetu ilga etnesnoc ehc acinect anu ,aifargonagets al noc otsocsan otset li avedulcni enigammi'1 ,itinedecerp inna eud iA .erenetto ad eliciffid 'Aip otats 'A etnatropmi Atlaer ni oiggassem li ,etnematanutroS 1033 adaciC :aifargotF 1033 adaciC :aifargotF .imirp ied onu are artana atseuQ .elibiggel esarf anu asrappa 'A odnaug a onif onrotni enidro'1 odnalocsem e ennoloc 31 ni erettel el odnettem otlovnioc aH .oiggaroc oim li eratsset ovelov ,oroval id atsivretni'nu e enoizitepmoc anu ,ocoig nu id oicorcni'la etrap ehclauq ad osoiretsim otneve nu ,1033 adaciC alled atlov amirp al rep otines oh odnaug ad reyaM .oianneg id oiggierepm olluqgart nu etnarud oicirpaE li noc otatnet ernessE a asoclaug ,esrof , 'A ol non tenretni us eliciffid 'Aip elzupp li !!! orevvad eravorp oilgov orevvad imatua'1 .1102 lad itadna onos elzupp I . Instead, in very dark gray, it is the image of a cicada. To install outguess, I need to fill out the program from the source. But which book? A message from a community community By helping to solve the cicada puzzle. Our search for intelligent individuals now continues, "he started, but that game ran for only three months before he ended up with an invitation to play the game; the cicada is now in his third year. Semi-galance, security services are known for Recruit puzzles and games. We have no membership burden. We have no name. We have no symbol. Here is the explanation of the community on why: A e A, - a a e Pohe References transcendentalism A e A, - a a e Emerson is a Noto author transcendentalist A e A, - a a e "trust Himsef" refers to "Trust Tynesell", which is a theme in all self-sufficiency, as well as production from inside does not think I would understand that on mine Iorio..munityther was a single piece of reliable information about those who lie behind the cicada. The third is just a signature, proof that the image is really coming from the cicada and that has not been tampered. Your pilgrimage It started. We don't have a public site and we don't publicly advertise The same. Lighting awaits you. "This year, I tried Joi N in hunting. And the beggars believe that they or the NSA would seriously begun a hunt for spies on 4Chan. At the same time, the cicada must be the work more than a person, with some Heavy resources. A species of. A couple of seconds joking with color levels in Photoshop and made it visible. Link an ENGIMA simulator, and I give it a trip. It could not be so difficult, right? wrong. CORDADA 3301 appeared for the first time in January 2012, with a photo published on 4Chan, the note Board of the message that gave birth all from Lalcats to Anonymous in white text on a black background, the message published Read: "Hi. Before the launch of Halo 2, Microsoft did something similar, launching a "alternative reality game" called loveleaves. Photography: / cicada 3301 Photography: cicada The answer is contained in the image file. Success!
